# Horse Fair 2011

The Committee organising the Coupar Angus Horse Fair in March hailed the community event as a great success ahead of their first meeting to start planning the 2012 event.

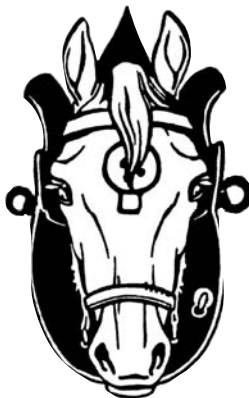

“The event was supported by many community groups in the town with sponsorship for competitions from large and small businesses giving prizes.” said Chair John Easson. “The parade included members of the Scottish Vintage Tractor and Engine Club as well as local vintage cars, heavy horses, young riders on ponies and a miniature Shetland Pony.”

Youngsters got involved by baking traditional Gingerbread Horses sponsored by Tower Bakery who have a bakery and Café in the town. The photography competition, judged by Lorraine Kelly, attracted entries from an older age group and was sponsored by 14 Marine Ltd and Lloyds TSB's local branch.

New activities included a talk by local author Kathleen Godfrey, Riding for the Disabled and the CAD Heritage Association Chair, Joe Richards.

Perthshire Open Studio Artists displayed their work and the stART Festival ran workshops. Their main festival is held in Blairgowrie in early June.

The first meeting will be held in St. Anne's Church Hall on Wednesday 11<sup>th</sup> May at 7.30pm. All Welcome.

## Forward Coupar Angus – LATEST NEWS

**COFFEE MORNING.** Forward Coupar Angus will hold a coffee morning on Saturday 14 May, 10am-midday at Talbot Hall, Trades Lane. Contributions for the cake and gift stall will be most welcome. For further information ring Michael on 01828 627124.

**COMMUNITY CAFÉ.** Also, on 10 May we will find out if our funding application for a community café at Talbot Hall (formerly the ToCH Hall) has been successful. We will be relying on volunteers to help run the café, so please let us know if you can spare a few hours each month. Also, would you like to undertake a one-day course in Basic Food Hygiene? This is important, because legally there has to be someone present with this qualification while food is being served. Initially we will open from 10am till 2pm each day, but we hope to extend this over time.

**QUIZ NIGHT.** On Thursday 16 June, 7.30-10pm, at the Red House Hotel we will hold a quiz night, with everyone's favourite quiz master David Carson. If you would like to enter, the cost is £10 per team of four.

**NEW WEBSITE:** Forward Coupar Angus has a new website, thanks to Bob and Lez, at [www.forwardcouparangus.org](http://www.forwardcouparangus.org). Here you will find the latest information about our projects, and how you can take part. You can also take part in the lively discussions on our two new Facebook pages – Forward Coupar Angus and Coupar Angus Creative Arts.

**ZERO WASTE FORTNIGHT.** We have begun discussions with Perth and Kinross Council to organise a Zero Waste Fortnight, scheduled to take place at the end of October. This involves measuring the town's total non-recyclable (green bin) waste at the start of the fortnight, and then measuring it again at the end of the fortnight. If there is a reduction, the money saved by the Council in landfill fees will go to good causes in the town. Lots of fun events will take place during the week.

**WELCOME SIGNS.** We are also looking into the possibility of erecting welcome signs at the four entry roads into the town. We will discuss this with local groups including the Community Council, CART and Pride of Place.

## A Little Bit of History – Coupar Angus Connections

### The Railway Comes to Coupar Angus

By the third decade of the nineteenth century, it was becoming clear that the future of public transport lay in railways rather than canals, as the Scottish civil engineer Robert Stevenson had predicted. Following a meeting of the newly-formed Dundee and Newtyle Railway Company in 1826, plans were drawn up and put into action for the creation of a railway to link Dundee with its rich hinterland of Strathmore. To carry the line across the Sidlaws, this required three inclined planes worked by winding engines at the Law above Dundee, at Balbeuchly by Auchterhouse, and at Hatton above Newtyle, with level sections in between hauled by horses. Train services between Dundee and Newtyle commenced in December 1831, with locomotives being introduced to replace horses on the flat sections by 1833.

Although extension of the line beyond Newtyle had been envisaged from an early date, progress only came in 1835, with the formation of the Newtyle and Coupar Angus Railway Company, the Dundee and Newtyle Railway Company being unable to raise the necessary capital to extend the line itself. Alternative routes were discussed, one crossing the River Isla near Bardmoney, to terminate in Blairgowrie. In the event, the line chosen for the extension lay well to the south of the river, running via Newbigging, Ardler and Denhead to terminate in Coupar Angus. Passenger services on the new line began in February 1837, goods services three months later. Another extension eastwards to Glamis opened the following year. It was to be another ten years before the railway crossed the River Isla to arrive in Blairgowrie.

There is a handsome metal die of the seal of the Newtyle and Coupar Angus Railway Company preserved in the Perth Museum. This depicts a steam locomotive, with a wagon bearing the figure of Old Father Time, outrunning both carrier pigeons and racehorses. Below this are a winged hour-glass and the motto 'Time is Precious'. In reality, however, it was some time before the company was able to introduce reliable locomotive-hauled trains, with the result that most of the early services to Coupar Angus were horse-drawn. This was still the case as late as February 1842 when the company had to borrow a locomotive for the visit of Major General C.W. Pasley, Inspector General of Railways. That said, he described the Coupar Angus branch line as being "...in good order. I passed over it in one of the locomotives of the Dundee and Newtyle Railway ... but this branch is now only worked by horses, both for the conveyance of passengers and goods", noting, at the same time that "...the railway has been beneficial to the public by lowering the price of coals &c. and by conveying a great number of passengers daily between Newtyle and the adjacent country and Dundee".

Although the Dundee and Newtyle Railway and its extensions were never profitable, it is clear that the venture brought great benefits to the local economy, so attracted wide public support. That said, it was not long before this tiny branch line was swept up by the rapidly growing regional and national railway networks.
